

Fortifeye® Focus Chewie

Do you have difficulty swallowing pills?

The New Fortifeye Focus soft chewable is for you!

The Fortifeye Focus Chewie is easy to swallow and chewable.

The soft chewie is a good nutritional source for children providing nutrients similar to eating kale, spinach, orange bell peppers, goji berries and wild salmon. They also contain potent anti-oxidants and anti-inflammatories.

Fortifeye Focus Chewie is great for the eyes and the entire body. They provide nutrients needed to improve accommodative (focusing) ability in the eye and increase macular pigment density. They also provide powerful carotenoids that help absorb the harmful UV and blue light emitted from the sun, the digital apps and electronic devices we use daily.

Fortifeye® Organic Greens

We are all on the go in today's fast paced society and eat fast food and overly processed foods for convenience.

Fortifeye Organic Greens is the nutritional supplement equivalent to 10-12 servings of 100% organically grown fruits and vegetables in one scoop.

When mixed with Fortifeye Super Omega, this is a complete meal. It can be used as a meal replacement to assist with weight control, or add to your daily routine to ensure you are getting the recommended plant derived phytonutrients to assist with anti-aging.

Fortifeye® Super Protein

Fortifeye Super Protein is a non-denatured whey protein concentrate from grass fed New Zealand cows. Certified no pesticide, hormones, or antibiotic are used with these cows.

Research states most aging adults are not getting the required amount of good protein in their daily diets. This form of protein stimulates glutathione - the master anti-oxidant in our bodies. As we age, this is a major deficient.

Fortifeye Super Protein will not only stimulate muscle growth and muscle retention, but will also improve the immune system. Use with organically grown fruits and vegetables in a smoothie or mix with Fortifeye Organic Greens for additional nutrition or as a complete meal.
